

TRIO WHO TOOK MAN'S CAR AND \$1,680 NABBED

Magoffin Youths Brought To Jail In Morgan County

Three Magoffin county young men who abducted a motorist from Salyersville, commandeered his car and then robbed him of \$1,680 in cash were brought to the Morgan county jail here Tuesday by Magoffin Sheriff Noah Rudder.

Lodged in jail here for safe keeping were Gene Autry Reed, Elwood Perkins and Donnie Perkins, all of near Womble and all in their early 20s.

State Police Detective C. E. Potter of Pikeville said Minus Combs, 52-year-old carpenter of Salyersville, accused the three young men of robbing him of his life savings.

Combs told officers the three men stopped his car on U.S. 460 about 5 miles west of Salyersville about dusk Sunday. Threatening him with an ice pick and a revolver, they forced their way into Combs' car and then drove around most of the night. They released Combs about 2 a.m. after robbing him of \$1,680 in bills, Combs said. Combs had not been injured. Sheriff Rudder and State Police arrested the trio the next day and brought them to West Liberty for safe keeping.

While held a prisoner in his own car, Combs said the trio spent most of the 10-hour period before they released him "driving around" in Morgan county, particularly in the Wrigley section.

State Police and local officers are investigating the alleged holdup further. They decline to report whether or not any of the stolen bills have been recovered.

Morehead Warehouse Receives 700,000 Lbs.

MOREHEAD, Ky., Nov. 20.—The new tobacco warehouse of the Morehead Tobacco Warehouse Co., here already has received 700,000 pounds of burley, John F. Foster, general sales manager, said today.

Although the new warehouse has been denied federal government graders by the Department of Agriculture, the firm has employed a former federal grader, Harold A. Conner for this season. Mr. Conner has spent practically all his adult life as a tobacco grader and inspector in the light burley belt. He worked three years in Washington and then was assigned as a grader in the burley belt.

Foster said his warehouse has guaranteed support prices as high as those of the government. He predicted the house will be nearly full by Saturday. Sales open Monday.

DEVILS NIP WOLFE HI AND CAMARGO

By Wallace Cantrell, Jr.

The Morgan County Blue Devils defeated Wolfe County High by a 20-point margin here Friday night before an enthusiastic home crowd. The Devils got off to a slow start in scoring 16 points in the first quarter but fought back in the second and third to grab a comfortable lead, winning 76-56. The Devils showed a real fighting spirit that, if maintained, could produce a very successful season.

Darrell Wheeler, who played his first complete game since taking the flu, scored 24 points. Billy Bailey, who now seems to have recovered from the broken arm suffered earlier this season, scored 13 points, and Scotty Elliott 15.

The Devils came back Tuesday night to win their third game in four starts by handing an undefeated Camargo team a 68-62 defeat.

They fought their hearts out to win, however, as they blew a 10-point lead late in the third quarter. Camargo battled them on nearly even terms throughout the fourth quarter, but they put up a brilliant battle and came roaring back to grab a lead and hold on to gain the victory. Although the Devils made some costly mistakes, they still showed that do or die fight to win.

The scoring attack was led by Wheeler with 31 points, Pelfrey 14, and Garland Patrick, who now seems to be breaking into the scoring columns, collected 11 markers.

The Devils' next encounter will be at Morehead in the scholarship tournament this week end.

Break In Gas Line Causes Elementary School to Dismiss

High tide in Licking River Tuesday caused a break in the Elam Utility Company gas line which disrupted gas service to the new elementary school on Wells Hill making it necessary to dismiss students.

The break in the line, which occurred at the mouth of Long Branch near the town bridge, could not be repaired until Thursday, when the water had receded sufficiently for workmen to reach the line.

SOCIAL SECURITY TO BE EXPLAINED HERE WEDNESDAY

Jarrel Vinson from the District Social Security office will hold a meeting at West Liberty in the courthouse Wednesday, Nov. 27 at 1 p.m. to discuss any problems Morgan counties may have on Social Security. Many farmers do not getting their full benefits from this program.

Hired farm workers are under different rules this year regarding social security.

Two factors are to be considered in determining if the farmer's hired workers should be reported under Social Security provisions.

Workers who meet the following factors must be reported: If they receive \$150 of cash wages (or more) during the work year; or if a worker is employed 20 days (or more) during the year for cash pay.

Work on a piece-rate basis does not count as days in using the day factor, but the \$150 yearly cash earnings still applies.

Reports are made to the Internal Revenue Service in January of each year. Payment of contributions from employee and employer is made at that time. Each party pays in 2 1/4 percent of the cash wages involved when the worker is qualified.

APPRECIATION

I do not have the words to express the deep feeling of gratitude which is inside me for the many acts of kindness of so many people during the illness and death of my husband "Bobbie" Carpenter. Without the assistance and help that you gave me I would not have been able to stay by his bedside during his illness. The financial help as well as the assistance given in caring for our children and our needs, the wonderful care given by the doctors and nurses, as well as the assistance during all of our times of trouble have helped me greatly in giving me some feeling that all was done that was humanly possible in trying to assist Bobbie to recover. I will not be able to thank each of you individually, however, I wish to express my appreciation and to say that your many kindnesses will never be forgotten.

IN 58 DAYS A '58 PLYMOUTH RAN 58,000 MILES—EQUAL TO

MORE THAN TWICE AROUND THE WORLD

AND IT DROVE EVERY INCH OF THE WAY!

We knew this car was tough.

We designed it that way.

That's why we weren't afraid to give Plymouth the toughest test run of all time... with all America as the "track."

We didn't coddle this Plymouth. Didn't crate it and ship it carefully from place to place. Instead, we aimed it out of Los Angeles one misty morning and sent it through a course that ran 58,000 miles through 37 states.

The time limit? Only 58 days.

A thousand miles a day!

The equivalent of 6 years' driving crammed into little more than 8 weeks!

Three times this Plymouth crossed the Rockies. Three times it wound its way up and down across the country... passing through more than 1200 cities and towns. Whipping over turnpikes... creeping through city traffic... arrowing down super-highways... feeling its way through 500 miles of rutted detours. And when the drivers turned the key to end the marathon, it still looked, ran and rode like new.

This is what lasting value really means. The ability to take everything that American roads and weather can dish out—and come up grinning. Why don't you give Plymouth a test drive yourself—today? You'll see what we mean.

That's the Plymouth "track"... and just look at that route! Every possible road and weather condition. Plymouth ran every inch of that murderous route 3 times in just 58 days. What greater proof of lasting, built-in stamina!

New-type, sound-conditioned concrete for your newest highways

Developed to meet the highway standards of 1975. Everything a good driver wants—new-type concrete has. There's never a "thump." It's sound-conditioned. Laid continuously, this pavement has no joints... only tiny, almost invisible cushion spaces, sawed into the concrete. You skim over them and don't know it! This new-type concrete is laid flat—stays flat. It has a life expectancy of 50 years and more.

Over 90% of America's most heavily travelled roads have been built of concrete. It's the preferred pavement for new primary roads.

Electric service bills sent out last month to Ashland and Sprigg district customers of Kentucky Power Company had a "new look".

And customers in the Pikeville and Hazard districts will see the new bills for the first time beginning December 1. These bills are the first in Kentucky Power to be prepared on New International Business Machine electronic equipment.

F. M. Baker, Kentucky vice president and general manager, said the new system of billing has been adopted by his company as another means of keeping operating costs down. The bills will be prepared on the IBM Type 650 Magnetic Drum Data-Processing Machine, as it is formally known. The machine is located in the system centralized billing office in Roanoke, Virginia, home office of Appalachian Electric Power Company, a sister company of Kentucky Power.

Mr. Baker emphasized that the change in the appearance of the bill and the billing method does not affect payment of the bill. "Customers will continue to pay their bills at the same places they have always paid them. Billing will continue at two-month intervals."

The IBM machine is sometimes referred to as a "brain", but Baker said this was misleading. Although the machine can perform countless operations at lightning speed, it cannot think. All information used by the machine is put on cards and fed to the machine, which has been pre-set to coordinate the information into the desired results.

CARD OF THANKS
We extend our gratefulness to every one who helped in any way during the illness and death of our dear husband and father. We wish especially to render thanks to Rev. Hinton, Rev. Benton and Rev. Lawson for their consoling words and untiring energy all through his illness and also to the Potter Funeral Home for their efficiency and kindness. Thanks to Dr. Spencer, those who brought flowers, the singers and those who helped on the grave and those who brought food—Wife and Family of Ervin Conley.

MORGAN IN AN AGRICULTURALLY SICK PERIOD

This is City-Farm Week, and many groups are pointing to the interdependence of farm and city folk and their need to work together.

Here in Morgan, which is almost wholly rural and agricultural, anything that affects agriculture in any way affects all of us. For West Liberty businesses depend entirely, or almost entirely for their business from farm folk.

And that's where farm prices, the farm programs and the tobacco support program affect us—all of us.

Speaking at a City-Farm Week program in Ashland Wednesday, Dean Frank J. Welch of the College of Agriculture in Lexington, pointed to the wide difference in income between farmers and industrial workers. He said the per capita income for farmers was \$889 last year while industrial workers had a per capita income of \$2,010. Further, he noted cost of living has increased from 119 to 121 since the base period 1947-49 while the farmers' price index has dropped from 106 to 89. Farm prices, certainly, are a weak spot in our wheel of economy. And a weak spot sooner or later can cause the entire wheel to collapse.

That's why something is needed to bolster farm prices. The sliding scale farm price program has

not worked. Apparently, too, the soil bank has failed. At least, it has not helped enough.

The Congress that meets in January probably will devote a lot of time and thinking in trying to solve the problem.

The government subsidizes many types of businesses through one method or another, like tax write-offs, franchises, import duties, etc. Is there anything wrong with establishing fixed parity price support on farm products to aid the nation's economically-sick agriculture? If the government finds it justifiable to subsidize one sector of the economy, why not another?

If something is not worked out, more and more individually-owned farms will disappear and the early American way of democratic farm life will suffer. Is this healthy in our democracy?

Meanwhile, we here in Morgan can help some ourselves. Instead of depending almost entirely on tobacco and cattle, we can add supplemental crops. But we should pick crops that not only are suited to our climate and soil, but crops that are in ready demand and bring immediate cash returns.

Such crops, we think, are sheep, sorghum molasses for commercial sale, Turkish tobacco, strawberries. Every one of these products bring a check as soon as the farmer produces them and gets them to market.

Let's keep our burley tobacco and cattle-pasture programs and guard our county's burley allotments jealously. These are our long suit. Burley brings Morgan county approximately \$1,900,000 annually, and distributes it widely.

Then, as supplements, let's add a few other crops that bring ready cash—like sheep, bottled sorghum, and Turkish tobacco.

Such a program of agriculture, coupled with building good pastures, will keep Morgan "the Bluegrass county of the mountains" and make for happy farm living.

Few of us know our real friends until we meet with misfortune or difficulty.

Some people practice snobbery, yet profess Christianity.

Some minds are like concrete: All mixed up and permanently set.

Do something every day to make other people happy, even if it's only to let them alone.

Books make good friends. They can be enjoyed nightly or they can be shelved.

Better settle down to a dull book than ask a talkative man to explain his prejudices.

LETTERS TO THE EDITOR

The Courier and News—

Find enclosed \$3.00 for the Licking Valley Courier and \$2.00 for the Elliott County News. We have been readers of these papers for 15 years and that is the first time we do when we get them.

There is some flu in this county but I haven't heard of any deaths yet.

I was raised in ol' Morgan at Dingus and in 1900 I married Nevada Conley at Elkfork and we have seen 57 years pass together. But we are both in bad health.

I would be glad if everybody would get right with God and sit with Him in glory.

A. G. DANIEL
Box 300, Marcum Rd.
Ashland, Kentucky

The Courier—

I am sorry that I did not get to see you when Harlan, Mo. and I were in West Liberty the day before last Labor Day. Harlan sent me a copy of the paper and the article about your hunting trip over your old home place and other spots which you covered when you were a youngster. It was very interesting.

One person I had not seen for at least fifty years was Clay McKenzie. I stopped for a visit with him. His mother Rinda was in bed. She said she had been bedfast for the last five years, ever since she broke a hip. I think she said she is 96 years old. I remember that her mother, Aunt Chester McKenzie lived to be 100.

My mother McKenzie lived at North Middletown in Bourbon county, and Mack McKenzie lives in Winchester. I saw Mack two years ago for the first time in more than 40 years, and I haven't seen Chester since 1937.

It is good to see old friends and renew acquaintances. On my way home I stopped briefly in Tulsa and called on Bertie and talked with Jack on the telephone.

Keep up the good work on the Courier. You're doing a fine job, and it's a nice, well put together little newspaper.

I have known Earl Kinner for many years and he is tops as a newspaper man, and it goes without saying that he is fine gentleman.

I was born in Morgan county, but West Liberty is more or less new to me. I dare say haven't been in West Liberty more than a dozen times in my life. It has grown into a very nice little town an dis modern in every respect.

I hope that some day I'll return to Morgan county to spend the remaining days of life. And who knows, this might just come true.

LOY ALLEN
Los Angeles, Calif.

The Courier—

Hello to all. Guess you will be surprised to hear from me. I was born and raised at the mouth of Blackwater near Kellacy. When I was 31 years old we moved to Butler, Mo. and lived there ten years. Moved from

there to Canon City, Colo. This is a beautiful place here, but don't think it has Kentucky beat any. We have wonderful weather here year round. When I left Kentucky there were my husband, two daughters, one son and I. Now just my daughter and me here. My dear husband passed away April 28, 1956, and my youngest daughter I lost in 1931 when we lived in Missouri. My son lives in Houston, Texas. He graduated from Colorado University at Boulder, Colo., as electrical engineer and works for Crown Oil Company. He has a wife and three sweet children.

I am a semi-invalid. Haven't been able to be up in five weeks. I sure have been enjoying the good ol' Morgan county paper. I have a niece who lives in Denver, Colo. She has had the paper sent to me the past two years. I still have many friends and relatives in Kentucky. I sure would like to hear Rev. Harlan Murphy preach again as I have heard him many times. I see in the paper where Flem Testerman lives in Foster, Ohio. I have heard him preach at the Peyton school house several times. I still have several schoolmates there. I love to read about them and their families. I went to school to Hollie Carpenter and also his brother Tom Henry Carpenter.

I will be remembered as Lula Cox Mays who married Aas Curtis Mays, son of George Mays.

I have a very bad heart condition. Would be glad to hear from all my friends.

A THANK YOU NOTE FROM DWIGHT, ILLINOIS

To Arthur C. Johnson, West Liberty, Ky., for publishing the picture of our beloved grandparents, the late Mr. and Mrs. Jacob Johnson.

It certainly turned back the pages of time.

When I look up on the picture it brings a lump that only a tear will dissolve.

I am proud to be a descendent of his.

Through the Courier I would like to hear from some of the people who attended his services, school teaching or ministry.

I will make a scrapbook for my children.

Though I was a child when he departed this life, I have a childish memory of him holding me in his arms because I was afraid of a cat.

So all of you who have a memory of grandfather, help me fill a scrapbook.

Farm Worker Who Gets 150 A Year Falls Under S. S.

FRANKFORT, Ky., Nov. 18.—Social security rules this year are different for hired farm workers, according to Earl Mayhew, Kentucky Extension Service specialist.

There are two factors to be considered in determining if the hired worker should be reported under social security provisions.

Workers must meet these conditions must be reported:

If they receive cash wages of \$150 or more during the work year, or if a worker is employed 20 days or more during the year for cash pay.

Work on a piece rate basis does not count as days in using the day factor, Mayhew said, but the \$150 cash earnings still apply.

Reports must be made to the Internal Revenue Service each January and payment of contributions from employers and employees is made at that time. When the worker is qualified, each pays 2 1/2 per cent of the cash wages involved.

The walls and ceiling of the fourth grade room have been painted recently. A light color of gray paint was used. This made the room much more attractive, and the lighting has been greatly improved.

The fifth grade has a nice workup on a Thanksgiving program. United States Capitals, crops, etc. The lower part of the wall of this room has been painted within the past few days. The plan is to paint the remainder in a short time.

A nice first-aid room has been set up on the lower grade side of the school building. The floor has been covered with a carpet, a medicine cabinet with supplies has been installed and a cot with pillow and blankets has been provided. The school is now well prepared to care for pupils with minor injuries and illnesses.

Mr. Craft, principal, has been sponsoring and promoting a project; that of landscaping the school grounds. So far approximately 200 dogwoods and 300 evergreens and redbud bushes have been set. A large number of flower bulbs and cuttings have also been set on the grounds. The school grounds should be very attractive and beautiful, and a mass of flowers and blossoms when the springtime comes again. The shrubs, sprouts and flowers have been brought and donated to the school by a number of pupils. A small prize is being offered to the child who brings the largest number of plants and flowers.

DETAILS OF REV. HUTCHINSON'S AUTO-TRAIN WRECK IN MIDDLETOWN, OHIO

ELKFORK, Ky., Nov. 18 (By Anna E. Adkins) This is a report of the awful accident I've just read of my nephew, Rev. Clifford Hutchinson's accident in Middletown. He was born in Morgan, a son of Mr. and Mrs. Roscoe Hutchinson of Morehead. He has many friends and relatives in this county that would like to know the details.

Ministers condition serious Nov. 9th—Injured in a car-locomotive collision here Thursday night, the Rev. Clifford Hutchinson was still in a serious condition at Middletown Hospital last night. The Rev. Hutchinson, pastor of the Grand Avenue Church of God, suffered severe head, chest and abdominal injuries in the mishap at the Baltimore & Ohio railroad crossing on Yankee Road at Young street.

In satisfactory condition at the hospital are three of the six children, also injured in the accident.

They include Karia Bryant, 9, daughter of Hayward Bryant, 1307 Pershing Avenue, cut skull and fractured left arm; Wayne Wagoner, 10, son of Roy Wagoner, 3002 Yankee Road, fractured clavicle and facial cuts; and Rose Nation, 13, daughter of Harry Nation, 3013 Mohawk Street, fractured right arm. Three other children in the Hutchinson family were dismissed from the hospital after emergency treatment.

November 10

Injured pastor still in critical condition—The Rev. Clifford Hutchinson, pastor of the Grand Avenue Church of God, who was injured severely Thursday night in a collision at the Yankee road, B. & O. crossing remained in a critical condition today at Middletown Hospital.

The minister was reported to have passed a "restful night," however, according to hospital officials. He received head, chest and abdominal injuries. The accident occurred about 6:35 p.m. Thursday as the Rev. Hutchinson and a group of other adults were driving a caravan of cars all filled with Junior Choir members to a song meeting. The Hutchinson auto struck a B. & O. locomotive which was backing up on the track.

November 13th

Tragedy brings unity—Anxious church members pray for pastor—Tragedy breeds many offsprings—hysteria, silence, self-pity, disbelief, sometimes unity. Tragedy lashed out at a church congregation here last Thursday when their pastor, the Rev. Clifford Hutchinson, was critically injured in a train-auto crash at the Yankee Road B. & O. crossing. Within minutes of the accident (which involved six children) dozens, perhaps hundreds of people, rushed to Middletown Hospital. Anxious members of the Grand Avenue Church of God jammed the lobby, the emergency waiting room, the corridors, dozens more who couldn't get in waited and prayed outside in their cars.

There must have been hundreds of cars in the hospital parking lot. They literally covered the hill, an observer said.

"I don't know why I rushed out to the hospital," one woman said later. "I don't know what good I thought I could do, I just wanted to be close by." Those that couldn't be close by flooded the hospital switchboard with urgent inquiries about the 36 year old preacher's condition. Operators took 145 calls during a 7½ hour period following the accident.

Many people, informed of the accident by other church members, flocked the Grand Avenue Church to pray for the minister. "When tragedy strikes people turn to the source that gives them strength," observed Rev. Henry Howard, Associate Pastor of the church. People have been coming to the church off and on ever since the accident. The church is kept open every night until midnight for anyone who wants to come and pray. The deep concern for the injured minister is being shared around the world. Requests for prayers have been aired over a Baptist broadcast that reaches points throughout the radio world as well as over the Church of God's own radio programs here and in Puerto Rico.

The Rev. Howard said his wife was near exhaustion after answering about a thousand phone calls at their residence following the accident. The deep concern for the friendly little minister was expressed by a church member who said, "I work in an office with thirty men. Every morning when I walk in they all come back for a report on Rev. Hutchinson."

The church itself is carrying on with the Rev. Howard taking over all the ministerial duties. Church members have brought in food to Mrs. Hutchinson, Patty, 10, and Bobby Jo, 6, until it's running out the door. Others are housing members of the Rev. Hutchinson's family, father, mother, three sisters and three brothers. Everyone is doing everything they can to help," Rev. Howard said.

Although Hutchinson has remained in critical condition with severe head, chest and abdominal injuries, he has been conscious and able to talk through a tube in his voice box. Two days ago the Rev. Howard bent down to hear his friend singing "Peace In The Valley."

November 15th

No change in pastor's status today—Middletown Hospital officials report. No change today in the condition of the Rev. Hutchinson, who was seriously injured Thursday in a train-auto crash. The pastor has been in a critical condition every since the accident.

Your reporter received news yesterday the 17th that Clifford was some better. A tube had been taken out of a lung but he was still on the serious list. Let's pray on for his recovery if it's God's will. We know the Lord can raise him up and put him back on the battlefield to work for Him.

STATE SELLS BONDS BONDS FOR \$35,000,000 FOR ROAD BUILDING

FRANKFORT, Ky., Nov. 18.—Plans for Kentucky's expanded road building program received a big boost when the state recently sold \$35,000,000 worth of bonds to help finance the proposed construction.

A 37-firm investment combine headed by First City Bank of New York and Blyth & Co., of New York was the successful bidder.

The bid was \$35,000,350 at an average annual interest cost of 2.9676 per cent, just under the 3 percent limit set by the Legislature.

The bonds, to mature between 1959 and 1972, were the first offered for sale of the \$100,000,000 issue authorized by Kentucky voters by a margin of about 6 to 1 at the November, 1956, election. A major factor was the bonds are Kentucky's first general-obligation debt. Money from the bonds can be used under the law only to match federal road construction aid. But use of bond funds for this purpose will release other state road-fund revenue which otherwise would have to match federal aid. These state funds then can be used to expand and expedite other road building.

INJURED IN WRECK

Rev. Clifford Hutchinson of Middletown, Ohio, well-known evangelist here, was seriously injured Thursday night of last week when his car was hit by a train at a railroad crossing in Middletown. Rev. Hutchinson suffered a fractured skull, broken ribs and other injuries. He was on his way to a young people's meeting at his church and had several young people in the car with him, but they escaped serious injury.

Versailles in Woodford county was named by General Marquis Calmes for Versailles, France, as a tribute to Louis XVI for his timely aid in the Revolutionary War. The town was established in 1792.

IN MEMORIAM

Franklin Delano Roosevelt
Heavy are our hearts tonight
Our world is filled with gloom.
For our beloved President
Passed on this afternoon.

Twelve long years through toil
And strife
Came better things to us;
His many hopes that came to pass
Brought shortness to his life.

Through toil and tears and weary
Years
With troubles not a few,
He took his tasks without a fear
And built our world anew.

Depression, drought and then came
War—
His heavy tasks grew more and
more;
His smile, his faith, his fond de-
sires—
With them our hopes became
inspired.

Soon all the world knew Frank-
lin D.
Was going down in history;
Beloved by all because he knew
Just why and when and what
to do.

Ne'er did he falter in his aim,
With God's great help he did
acclaim—
That peace and faith would come
to men—
Too bad he could not stay 'til
then.

But weary, tired and weakened
too,
To Warm Springs, Georgia, he
then flew
God knew that his great work
was done,
So Angels to this earth did
come.

Along with them they took his
soul
And left behind a mighty toll,
A loss that cannot be refilled
Because his loving heart is
stilled.

God bless and guard his precious
soul;
Grant us his faith and keep
him near,
Remembering that he left us this:
The greatest thing we have to
fear is fear.

WOMEN 62 NOW MAY DRAW S. S. PAY BENEFITS

Ladies, if you are now 62 years of age or older, or if you will soon be reaching that age—read further!

Do you realize what the 1956 changes in the social security law can mean to each of you? Women, potentially entitled to benefits (if they are otherwise qualified) can now start to get monthly benefits before age 65.

Read further to see how you may be affected. If you are a wage earner or a dependent of a wage earner, you may claim your old-age insurance benefit beginning with the month you reach age 62 instead of having to wait until you are 65. However, if you choose to take the payments before you reach 65, the amount of the monthly benefit you receive will be permanently reduced.

The wife of a man who is getting social security retirement payments may also be entitled to benefits at age 62. Like the woman wage earner mentioned above, however, her monthly benefits at the earlier age are also permanently reduced.

It must be borne in mind that if a woman wage earner or a wife of an insured retired husband who is getting benefits chooses to take benefits in a reduced amount before she reaches age 65 she will continue to get a reduced amount even after she reaches age 65. The choice as to when to file is hers—each woman in these categories should consider fully how she will be affected. The longer she waits before age 65, the higher her monthly benefit will be. She must weigh in her mind whether she prefers to start getting benefits for possibly 36 months before she would have otherwise started getting them, or wait until she can get higher benefits.

The reduction, which applies in the case of an insured working woman or the wife of an insured husband who is getting old-age payments is a percentage which is based on the number of months she is under the age of 65.

A widow of an insured worker or a dependent mother of a deceased insured worker may get unreduced widow's or parent's benefits at age 62.

So—ladies—consider all the facts and your own individual circumstances and decide whether you want lower benefits at an earlier age, or more by filing at a later date.

In any event your local social security office can give you complete information regarding your specific case. Booklets covering the entire benefit story are available.

Further information regarding the benefits for women may be obtained from the social security district office located at 411 19th Street, Ashland, Kentucky. The office is open from 9 a.m. to 5 p.m., Monday thru Friday. Mr. Adrian Hatfield, Field Representative of the Ashland office, will be in West Liberty each Wednesday at 11:30 a.m. (CST) at the courthouse and will give you information concerning social security benefits for women. There is no charge for this service.

The child's death Thursday in Michigan was the result of a heart condition.

In addition to the parents, the baby is survived by one brother, Allen Monroe, and maternal grandmother, Mrs. Maude Ison of Isonville.

The father is a native of Isonville but has been employed in Michigan for the past three years. Internment was in a cemetery near Isonville, with Lewis & Ferguson Funeral Home in charge.

Outlaw's Heads Grim Reminders Against Crime

FRANKFORT, Ky., Nov. 11.—One of the bloodiest episodes in early Kentucky history concerns the exploits of the outlaw Harpe brothers. So notorious were they that they became the villains of many dime novels.

Big and hairy (or Micajah and Wiley) and the three wives they shared came to Kentucky from North Carolina in 1802 and left a wake of crime up and down the Natchez Trace and the Green River region.

Often they disguised themselves as Methodist circuit riders. One of the wives was a ministers daughter. After divine services in a home in the wilderness, they would rob and kill the family that gave them shelter.

The first to be captured was Big Harpe. He was executed and his corpse was beheaded. As a warning to other desperados, the head was placed in a tree. Harpe's Head Road, about 30 miles south of Henderson, became a grim landmark. A legend arose that a treasure was buried in the vicinity. But much work with pick and shovel has failed to disclose it.

After the death of his brother, Little Harpe became the consort of Samuel Mason and a land pirate named Mays. The son of a noble Virginia family, Mason led a gang of cutthroats at Cave-in-Rock on the Ohio River below Louisville.

On one occasion when a large amount of loot was to be divided, Little Harpe and Mays slew Mason. Taking his head to authorities in Natchez, they claimed a reward. But they were recognized and arrested. Later they escaped, but were recaptured in Greenville, Muhlenburg County, and hanged.

At each end of town, the head of one of the outlaws was impaled on a pole.

THE KENTUCKY TRAGEDY: SHARP AND BEAUCHAMP

(By Charles F. Hinds Secretary-Treasurer, Kentucky Historical Society)

FRANKFORT, Ky.—A blood-stained case knife in the museum of the Old State House recalls a murder so premeditated and so cold-blooded that it is often referred to as "the Kentucky tragedy."

Jereboam O. Beauchamp arrived in Frankfort Nov. 6, 1825, after traveling four days by horse back from his home in Simpson County. He had a single, diabolical purpose in making the trip. He planned to murder Colonel Solomon P. Sharp, a respected citizen and a prominent "New Court" politician.

The time chosen for the bloody deed was after midnight on the morning of November 7. The place was the home of Colonel Sharp on Madison Street, just west of the Old Capitol. The murder weapon was a "butcher" knife. The motive was revenge.

The campaign for state offices in 1825 had been a particularly bitter one. Attention was centered on the race between Colonel Sharp and John J. Crittenden, an "Old Court" partisan. Colonel Sharp won the election by a narrow margin, but during the campaign Sharp's political opponents publicly accused him of having seduced Ann Cook Beauchamp (before her marriage to Jereboam) and having fathered her still-born child. Jereboam and Ann Cook Beauchamp were especially incensed when a handbill was distributed by Sharp's opponents, publishing the colonel's alleged denial of paternity on the grounds that Mrs. Beauchamp's illegitimate child had been not white, but mulatto.

Beauchamp summoned his victim to a side entrance which led to the apartment of Colonel Sharp and his wife, and before the colonel could defend himself, the assassin delivered the death blow just below the center of the stomach.

Beauchamp was tried and sentenced to death by hanging. Shortly before the hour of execution, however, he and his wife stabbed themselves. She died shortly thereafter, but her dying husband was rushed to the gallows and hung quickly before two companies of the Twenty-second Regiment and "a large assemblage of citizens and strangers."

The suicide weapon is the only physical object left to remind us of this famous tragedy, immortalized in fiction by such distinguished authors as Edgar Allan Poe and Robert Penn Warren.

DEMS WINNERS OF MOST IN LAWRENCE

Democrats in Lawrence county elected a full slate of county officials except for County Attorney and Coroner in the Nov. 5 election.

Lawrence countians voted against both amendments, the first by 984 to 541 and the second by 1178 to 544.

Doris Owens, Democrat carried the county over Republican Charles Green 2,733 to 2,307.

John W. Greene, Democrat of Sandy Hook, carried Lawrence for State Representative over Jack Bowling 2,870 to 2,310.

Democrats winning for county offices are:

Nile Ball defeated S. J. Hardin 3,212 to 2,307 for County Judge. Jake Jordan defeated John P. Price 3,042 to 2,647 for Sheriff. W. H. Moore defeated Rev. Willie Moore 3,242 to 2,425 for County Clerk.

John Holbrook defeated Eske Carter 2,921 to 2,604 for jailer. Democrat Myrtle Meek and Republican Dan Ball were unopposed for Tax Commissioner and County Attorney respectively.

Republican Dana Harless defeated Democrat Bert Thompson for Coroner 2,867 to 2,326.

Magistrates elected were split 4 Democrats and 4 Republicans. Circuit Judge Wm. D. Sparks and Commonwealth Attorney Wm. N. Hazlett, both Republicans, were elected without opposition in the Lawrence-Johnson district.

SECURITY RULES ARE DIFFERENT

Farm workers should know the rules for deciding whether their work falls under social security, according to Robert A. Flynn, manager of the Ashland social security office.

In 1955, if a farm operator paid a farm worker \$100 or more in cash wages during the year, the work was under social security; the farm operator was expected to deduct the employee's share of the social security tax from the wages. If the worker required to add a like amount himself, and to report and pay the total to the Internal Revenue Service, along with the worker's name and social security number.

"Beginning with 1957 the rule was changed somewhat. Now if a farm operator pays a farm worker \$150 or more in cash during the year, the cash pay is covered under social security," Mr. Flynn explained. "Cash pay" includes payment by check, as well as by currency and silver. It does not include the value of such things as room or board. "Also, even if the worker fails to earn as much as \$150 cash pay from the farm employer, but does work for him on 20 days or more during the year, the pay is covered provided the work is done on a time basis—by the hour or day or week. The number of days worked and the manner of figuring the pay doesn't make any difference, however, of the \$150-a-year test is met."

Since the farm employer who pays wages for work covered under social security has to report the wages and pay the social security taxes to Internal Revenue Service, he must know the worker's name and social security number so he can report correctly. His report for 1957 isn't due until January 31, 1958, but in the meantime he should keep records of the wages paid to his farm employees. Consequently it's important for a farm worker to have a social security card to show his employer.

Further information regarding social security benefits for farmers may be obtained from the social security district office located at 411 19th Street, Ashland, Ky. The office is open from 9 a.m. to 5 p.m., Monday thru Friday (except national holidays). Also Adrian Hatfield, Field Representative of the Ashland office, will be in West Liberty each Wednesday at the Court House at 11:30 a.m. (CST) and will answer any questions you may have concerning social security benefits. There is no charge for this service.

WHISKEY RAID IN ROWAN

Kentucky State Police, unrelenting in their drive against whiskey violations in dry Rowan County, conducted two more raids Saturday of last week.

Arrested were: Randolph Conn, 39, Haldeman, operator of the Block House, about a mile south of Haldeman. William Adkins, 48, who lives on the mouth of Rock Fork.

Police said they confiscated whiskey and beer at the store and at Adkins' home.

Because peanut butter is high in fat, it can take over part of the shortening duties in breads, pastries, cakes and main dishes.

OBITUARY

CARPENTER

Dennie Oliver Carpenter, Jr., son of the late Dennie Oliver Carpenter and Ollie Francis (May) Carpenter, was born at Woodsbend, Morgan County, Kentucky, June 27, 1928, and departed this life November 12, 1957, at 10:00 p.m. in the West Liberty Hospital. He was nine years in marriage to Glois Elam, daughter of Russell and Elizabeth (Fannin) Elam of Wrigley, Kentucky, November 15, 1947, and to this union was born two girls, Rhonda Shane and Donna Jane.

"Bobbie" as he was known by his many friends, served as a proficient school bus driver for eight years. He also served as a well-trained and efficient mechanic at the Pontiac and International Garage in West Liberty, where he lived for the last nine years. His services were sought and appreciated by people far and wide and he was always willing to serve at any hour called upon and possessed a deep sense of pride in service well done.

He was a lover of God's great out-of-doors and spent as much time as possible enjoying and appreciating the things of Nature. He was a wonderful father and husband and much loved by his family who have been devoted to him in all the varying experiences of life.

"Bobbie" became a believer in Christ and was baptized by Rev. Fred Pennington, June 21, 1953. He served as Junior Deacon of his church. He could honestly say with the Great Apostle Paul, "I have learned in whatever state I am, therewith to be content." Bobbie never complained about adversities.

He is survived by his wife, two daughters, his mother, three brothers: Clifton of Midway, Kentucky; Bennie Joe of Dayton, Ohio; and Jimmie of Woodsbend, Kentucky; and two sisters, Elizabeth Anderson and Emma Dean Cecil of West Liberty, Kentucky. He also leaves to mourn his loss a number of relatives and a host of devoted friends.

DIABETES TESTS OFFERED FREE

Free diabetes tests are being of-
 fered by physician members of the
 Kentucky State Medical Associa-
 tion, hospitals and laborator-
 ies throughout the state as part
 of National Diabetes Week Nov.
 17-23.

Hershel B. Murray, M.D., West
 Liberty, chairman of the Morgan
 County Medical Society Diabetes
 Committee, will direct the detec-
 tion drive locally.

Diabetes Week in Kentucky has
 been proclaimed by Governor A.
 B. Chandler. In his proclamation
 he stressed importance of every
 citizen learning about diabetes
 and taking advantage of the free
 tests offered during the week by
 Kentucky doctors of medicine,
 hospitals and clinics.

Every man, woman and child
 in Kentucky was urged today by
 Robert Hoffman, M.D., South Ft.
 Mitchell, K.S.M.A. Diabetes Com-
 mittee chairman, to request the
 free test.

"It is a good idea to be tested
 for diabetes every year," Dr. Hoff-
 man said, "because often early
 detection can greatly simplify the
 medical problem that diabetes
 creates. In many cases simple
 control of the weight or diet may
 permit the victim to live a long,
 normal life."

"The average person has little
 to fear even if he has diabetes,
 so long as he is aware that he has
 it," Dr. Hoffman continued. "The
 unfortunate victims are those
 who have the disease for a long
 time without knowing it. Obvious-
 ly the earlier it is detected, the
 better."

An estimated 1,000,000 persons
 in the United States and 15,000
 in Kentucky have undiscovered
 diabetes. It is to find these peo-
 ple so they may avail themselves
 of control measures, that the Ken-
 tucky State Medical Association
 has sponsored the detection drive
 each year since 1951.

Jno. M. Keck Attends Dinner For Judge Watt M. Prichard

Judge John A. Keck of Sandy
 Hook was in Ashland last Fri-
 day to attend the testimonial
 dinner for the Boyd County Bar
 Association honoring Judge Watt
 M. Prichard of Ashland who will
 retire Jan. 1 after serving 24 years
 as circuit judge of his district.

Justices of the Court of Appeals
 and judges from many districts
 in Eastern Kentucky attended the
 testimonial dinner. Judge H. R.
 Dysard, former law partner of
 Judge Prichard, served as master
 of ceremonies and offered his
 own estimate of the outstanding
 qualities that had made the hon-
 ored judge the choice of the peo-
 ple and the bar so often. Judge
 Sims of the Court of Appeals
 paid tribute to Judge Prichard
 as being "one of the great trial
 judges of Kentucky of all times."

In response, Judge Prichard
 said, "A judge is concerned with
 learning the truth and with doing
 justice." From that comes the
 highest sense of satisfaction.

"I have had to do my level best
 to approach every case with hu-
 mility. I had to go to the Infinite
 Being and ask Him to aid me to
 get the fuzz out of my mind and to
 be rid of all prejudice of bias, be
 it conscious or unconscious."

"Our nation is founded on God's
 will and from him come justice
 and liberty. Without justice there
 can be no liberty. This responsi-
 bility rests most upon the legal pro-
 fession. If I have made a good
 judge, as you say, the credit be-
 longs to God."

PA DIDN'T HEAR THE MUSIC

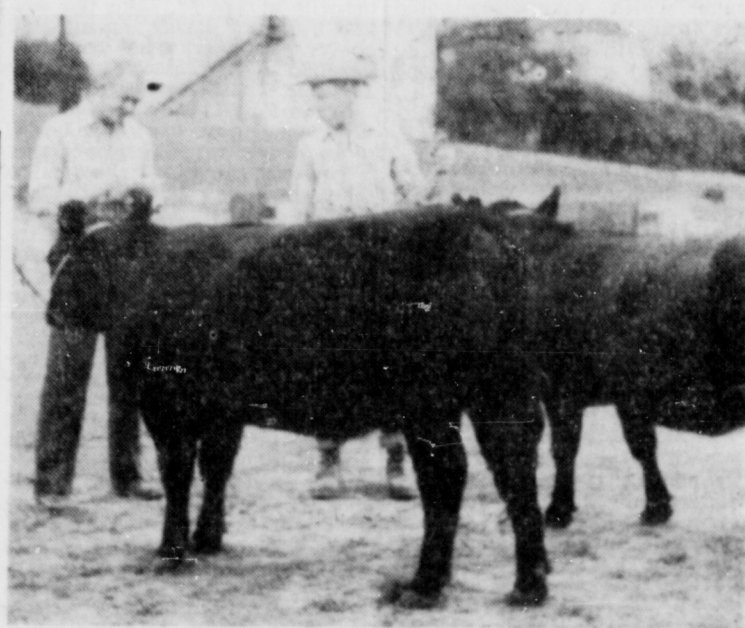

A worried father hurried to his
 teenage son's hospital bedside.
 The lad had a broken leg and
 cuts and bruises all over his body.
 "What happened?" the father
 asked. "Did you have an accident
 coming home from your girl's
 house?"

"No," the boy groaned. "We
 were jitterbugging and her father
 came in. He is deaf and couldn't
 hear the music—so he threw me
 out of the window."

Stafford Dry Cleaning building was constructed in 1948. It is 39 feet long and 24 feet wide, located near the Methodist church on Main street, West Liberty.

Equipment at Stafford's Dry Cleaners is modern and consists of the latest and best machinery. Included are a boiler room, three pressing machines and a special

machine to use for ladies' clothes. There are also storage rooms and a moth-proof storage for clothing at a very low rental cost.

The plant can dry clean and press a thousand garments a day. It employs 10 workers.

Robert T. Stafford started the business in 1948 and he has continually increased and improved

the business.

Stafford's Dry Cleaning works eight counties—Morgan, Elliott, Magoffin, Lawrence, Johnson, Wolfe, Menifee and Rowan. The firm's trucks visit most of the counties twice a week.

Laundry and dry cleaning picked up on Monday is returned on Thursday and the dry cleaning and laundry picked up Thursday is returned Monday.

Mr. Stafford said he is proud of the cooperation and good spirit of the people he serves and appreciates their help in making this one of the best establishments, and this has enabled him to make his prices lower than most other dry cleaners.

The following teachers from near this section attended the Eastern Educational Association at Ashland Friday, Mr. and Mrs. Wardie Craft and Harrison Holliday. They enjoyed the morning program and were much impressed with the talk given by Jesse Stuart, poet and writer, to the students Library Association about his history in writing his twenty books and many poems.

Harrison Holliday, fifth grade teacher at Cannel City, reports these pupils from his room were on the honor roll for the first six weeks period—Larry Allen, Roger Lacy, Danny Lacy, Lloyd Lacy, Mike Phipps, Louise Byrd, Alice Gibson, Margaret Lanford, Crystal Perkins, Shela Williams, Bonnie Wilson, Joyce Wilson, Danny Barker, and Marjorie Whitley.

These persons from Holliday were in West Liberty to see the opening of the new drug store, Mr. and Mrs. Anna Lykins, Sammie Oney, Mr. and Mrs. Harrison Holliday, Lizzie Holliday and Willie Holliday.

Good Burley Crops

Most tobacco growers have their crop stripped or in the process of doing so at this time. Most farmers report a good yield this year even if the season was too dry.

Mr. and Mrs. Harrison Holliday visited the Sunday school class at Cannel City where Mrs. Miles Henry Ferguson is superintendent and found them doing a good job. Attendance was not up to par due to so much illness but it was good.

Mr. and Mrs. Henry Fletcher gave the classes all a surprise treat of candy and apples. If you have a chance drop in on them any Sunday they will make you feel welcome.

Thanksgiving Supper

If you live near Cannel City, don't fail to attend the Thanksgiving supper sponsored by the school and the P.T.A. which will be in the school lunch room at 6:00 p.m. Nov. 27, tickets are \$1, each.

TOO LITTLE, TOO LATE is the way we Dodge dealers feel about competitors' efforts to match the Swept-Wing 58. They lowered the roof some, but left the sides high. Their windshields got smaller while ours got bigger. So much for styling. Then, for another important comparison, take ride. Here's Dodge with Torsion-Aire suspension that just about everybody admits is the greatest advance in sway-free, dip-free, silent going that any car offers. So what do these other cars do? They borrow an air suspension system that's been used in buses for two years! (Costing well over \$100.00 extra.) And most of 'em still don't have push-button driving—much less Dodge TorqueFlite—the proven automatic transmission. If you're a little disappointed in the '58 version of your car, come on in and see our Swept-Wing 58. The others are catching on—but they can't catch up.

MORGAN NATIVE DIES AT AGE 92

A Rowan County woman, who delivered hundreds of babies as a mid-wife over a 60 year period, quietly passed away Thursday morning of last week at a Lexington hospital.

Death came to Mrs. Nannie (Gose) Reeves. She was 92 years of age.

The pioneer woman answered the call from any expectant mother at any time of the day or night during most of her life. She always recommended a physician, and assisted many with mothers. However, she had to serve hundreds, maybe thousands of times, when a doctor was not available.

Her mind was keen and clear until about a year ago. Although she lived by herself she was attended in her declining years by a daughter, Beulah Stewart, who lived in an adjoining residence on Branham Avenue.

Funeral services were conducted Saturday afternoon at 2 o'clock at Morehead Baptist Church with Rev. J. C. Rakes officiating. Burial was in the family plot at Caudill Cemetery.

Mrs. Reeves was born June 12, 1865 in Morgan County, daughter of the late John and Cynthia Ann (Nickell) Gose.

She moved to Rowan County in 1889 when she married Floyd Reeves of Farmers.

They became the parents of seven children of whom the following six survive: Don L. Reeves, Fairfield, Texas; Mrs. Leora Johnson, Mrs. Mabel Kelly, Mrs. Elda Messer and Mrs. Beulah Stewart, all of Morehead.

VFW To Give Square Dance Here Dec. 7th

The Herman Volney Nickell Post Veterans of Foreign Wars will sponsor a square dance in West Liberty Saturday evening, Dec. 7 to raise funds to provide Christmas baskets to needy children.

The post decided on the project at a meeting last Wednesday night. Charlie Barker and his band from Paintsville will provide music for the dance, which will be held in the Old Gym in West Liberty starting at 7 o'clock.

John Chambers, Territorial Governor of Iowa, lived and practiced law in Washington near Maysville.

MORGAN CORN DEMONSTRATION SHOWS YIELDS OF VARIOUS SEED VARIETIES

The Columbia Seed Company conducted a corn demonstration plot this year on the farm of Volney McGuire in Morgan county using many varieties of corn from many seed corn companies.

For this demonstration, the Armour Fertilizer Company furnished the fertilizer. A 12-12-12 fertilizer was used at the rate of 500 pounds per acre before the corn was planted. Then 200 pounds of 12-12-12 per acre was used at one side of the row.

This demonstration was for only one year, but it demonstrated that the most common hybrid varieties used in this area will do a wonderful job for the farmer if he uses the fertilizer and has the stand (a minimum of 1200 stalks per acre on good soil). Moisture too, at the right time is a big factor. Lack of moisture probably reduced the yields on this demonstration but the crop generally was much above average even for an ideal season in our section.

Varities of seed and the resultant yields per acre are shown here—

if your husband had to do this today...

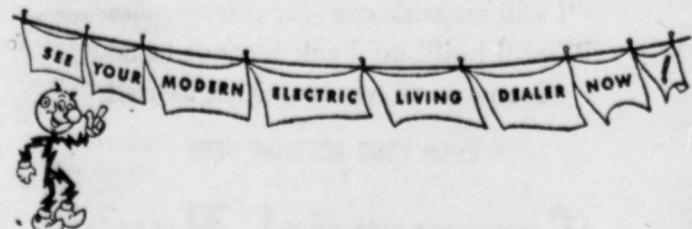

... guess what he'd do tomorrow!

Up and down, bend and stretch . . . that's the way it goes when you hang out the family wash the old-fashioned way.

If your husband did these wash-day exercises just once—struggling with unwieldy baskets full of heavy wet clothes, hanging each piece up one by one—we'll bet he'd buy an electric clothes dryer.

Then, on wash days, there'd be no more unnecessary drudgery for you . . . no more backaches . . . no more clothespins to bother with . . . no more unsightly clotheslines. You'd just toss a washer load of clothes into your electric clothes dryer, set a dial, and they'd be fluffy dry pronto! And your family would save money on clothes, for you'd actually need fewer changes for children. With an electric washer and dryer, you can have clothes sparkling clean and dry—ready for use—within two hours.

If this sounds wonderful to you, see if you can get your husband to go through the wash-day lifting, bending and stretching routine just once. Odds are in your favor that both of you will soon be seeing your modern electric dealer . . . on your way to Living Better Electrically with an electric clothes dryer.

FLORESS

(By Nora Easterling)

Nov. 18—The last three words in my Bible answer to Rev. 4:6-7 have caused some doubt in some of our ministers' minds as to whether Christ opened the Book of Life when He was crucified or whether it will be opened on the last day or resurrection day. Can any one who reads this explain when the book will open or, is it already opened, awaiting the roll call?

Greeting cards and letters keep coming to my mail box from readers of Nora Easterling's news of Honeymoon Hollar, Mocking Bird Hill and the goings on at Florress on Lacy Creek. I wish to send my thanks to: Mr. and Mrs. Wm. Caskey of 175 Pleasant Valley Dr., Walnut Creek, Calif.; to an aged lady who has an invalid husband aged 88 years, Mrs. Sarah Ingram of Maytown; Rev. and Mrs. Leslie Gevedon, who are

spending the winter in Florida; Mrs. Minnie Cassidy, daughter of Dock Helton who once lived at Florress and now lives at Miami, Ohio; Stella, Claude and Barry McGuire of Pelfrey Branch of Florress; Mrs. Dennis Francis of Cisco, who has lost a dear one as I have; a dear friend of my teen age days, Mrs. Ross Williams (Tallie). She is Elna, Ky., postmistress; Mr. and Mrs. J. T. Mann, Korea, Ky., who enjoy the Florress news as I enjoy Rattie's Korea news; Mrs. Settle Fairchild and daughter Helen and twin sons Glen and Lynn of Waynesville, Ohio.

Anyone knowing about the early life of our grandparents, please write to Nora Easterling, Florress, Ky. or Arthur C. Johnson, Cottle, Ky. Grandparents: Elder Jacob Johnson and Liddle Wheeler Johnson (deceased) of Lawrence, Magoffin, Johnson and Morgan counties, whose pictures

were in Nov. 14 paper.

In 1825, a few months before Christy's Minstrels first sang, "My Old Kentucky Home," Stephen Collins Foster and his wife came down the river from Pittsburgh on their way to New Orleans. It is locally affirmed that on this trip Foster visited his cousin, John Rowan, Jr. at Federal Hill near Bardstown and wrote the popular song.
